Projects

HireLens – AI Placement Intelligence Platform

Flask, Gemini AI, SQLite, OCR, HTML/CSS, JavaScript

- Developed an AI-powered resume and placement analysis platform using Flask and Gemini AI.
- Implemented resume and job description analysis with support for PDF, text, and image uploads.
- Integrated Gemini AI to generate ATS analysis, resume suggestions, and interview preparation guidance.

BudgetBee – AI Personal Finance Management Platform

Flask, Gemini AI, SQLite, OCR, Chart.js

- Developed an AI-powered personal finance management platform with expense tracking, budgeting, and savings goal management.
- Added AI-generated financial insights, receipt scanning, and expense categorization features.
- Built analytics dashboards with monthly and yearly expense visualizations using interactive charts.

Research Publication

- Co-authored a research paper titled “**Deepfakes: A Review of Creation and Research Trends**” presented at the **11th International Conference on Information and Communication Technology for Intelligent Systems (ICTIS 2026), Thailand**.

Certifications

- Static Website Development – NXT Wave
- Introduction to Databases – NXT Wave
- Responsive Web Design – NXT Wave
- Python Programming – NXT Wave
